

How to Use the Classroom Demonstration Materials Tape

This videotape contains video clips, sounds, still images, classroom footage and other material you can use to teach the lessons from this workshop session in your own classroom. It is provided free to purchasers of The Arts in Every Classroom workshop on videotape.

Items appear on tape in the sequence they were used in the workshop. For some programs, however, the tape contains some extra examples, in addition to those that appeared in the workshop.

To find specific items on the tape:

- Check the list below to find the item you want to use.
- Note the numbers in the “Time Counter” column that correspond with your item.
- Play the Classroom Demonstration Materials tape. Look for the time counter on the tape, which will appear in a blue box in the upper right hand corner following the introduction and titles.
- The item will appear on the tape when the time counter on the tape matches the time of the item you want.
- Following each item, a blank screen appears for 15 seconds. You can stop the tape or move it forward to the next item you wish to show.
